

What You Need to Know about Overdrafts and Overdraft Fees

An **overdraft** occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdraft in two different ways:

1. We have **standard overdraft practices** that come with your account.
2. We also offer **overdraft protection plans**, such as a link to a savings account, which may be less expensive than our standard overdraft practices. To learn more, ask us about these plans.

This notice explains our **standard overdraft practices**.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions using your checking account number
- Automatic bill payments

We **do not** authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- Everyday debit card transactions

We pay overdrafts at our discretion, which means we **do not guarantee** that we will always authorize and pay any type of transaction.

If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Verve, a Credit Union, pays my overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to \$32 each time we pay an overdraft.
- Also, if your account is overdrawn for 5 or more consecutive business days, we will charge an additional \$5 per day.
- There is **no limit** on the total fees we can charge you for overdrawing your account.

What if I want Verve to authorize and pay overdrafts on my ATM and everyday debit card transactions?
